SAM'S *Story*

“Since going through Way Back Inn’s extended residential program, I have successfully quit the use of drugs and alcohol.

Way Back Inn allowed me to get back on my feet and approach the real world with a renewed mindset.

The structure gave me the necessary tools to live a responsible life free of addictive substances, which ultimately lead to me returning to school - and graduating.

WBI provided the structure and support I needed to stay sober, to live independently, and to flourish in life, instead of floating through it.”

TRANSFORMING *Lives*

We’ve been helping individuals rebuild their lives since 1958, providing a recovery space for people struggling with gambling and/or substance use.

Way Back Inn has grown into a unique model of recovery that incorporates evidence-based practices, addressing the needs of affected individuals and their loved ones.

Today, Way Back Inn encompasses seven distinct residential environments that provide an individualized recovery program tailored to meet you where you are along the recovery continuum.
